**HENRY | Graduated 2020**

**Fullstack web developer bootcamp**

- 4-month intensive bootcamp turning into a Full WebStack developer.
- +600 hours.
- 2 real projects done with SCRUM methodology.

## PROJECTS

### Plant nursery E-commerce

**Objective: Develop a complete e-commerce.**

Using all the technologies mentioned before, me and my team developed a full e-commerce. Containing products, categories, login, users, cart, admin role, and many other functionality.

### Henry-App

**Objective: Develop an application for an educational organization.**

In this application we continued developing our technical and working skills.

We created the system for Henry company to make cohorts, invite students, organize the different groups and assign them teachers, authentication with Github, and as well, many other functionality.
